Timing Belt Kits with Water Pumps

The SBS range of timing belt kits cover the most popular passenger car models and vans in the European market.

It comprises all relevant parts such as belt, guide, tensioner and idler pulleys for a timing belt repair. All parts are delivered in one box set which makes stock handling easier and repair work faster.

All parts are in OE quality. This goes not only for the timing belt itself which are made by one of Europe's leading manufacturers, but also for the accessory parts which guarantee the correct tensioning, guidance and power transmission of the timing belts.

Together with the timing belt kits, SBS offers a selected range of European made water

pumps from one of the continent's finest and most experienced suppliers. The water pumps correspond to the applications of the timing belt kits. They feature high cooling efficiency and long life time. They are delivered under own reference numbers and in separate boxes.

Highlights

- Highest quality timing belt kits from reputable European OE suppliers
- Kits including belts, guide, tensioner and idler pulleys
- Corresponding water pumps with high cooling efficiency and long lifetime from leading European supplier

For car model coverage and complete catalogue data, please consult TecDoc or contact us.

SBS

Scandinavian Brake Systems A/S develops, manufactures and distributes brake parts and other wear parts for cars, motorcycles and special applications where extensive brake and friction knowhow is required.
